## Pilo No.2 Fabric Shaver

Many consider clothes or home textiles to be worn out because of lint and pilling. But by simply shaving off the pills with a fabric shaver, your textiles will appear as new again.

Pilo No.2 Fabric Shaver is gentle yet effective and removes lint and pilling from all kinds of materials.

## Features

### High Performance

With 6 precision razor blades, a strong engine and a 5 cm shaving area, Pilo No.2 Fabric Shaver is stronger and more effective than many fabric shavers on the market.

### Works on Delicate Materials

Pilo No.2 Fabric Shaver is gentle and works perfectly on all kinds of wool, cashmere, merino and alpaca.

### Smart Air Flow

The rotation of the razor blades in Pilo No.2 Fabric Shaver does not only remove pilling, but also works as a suction fan to attract the pilling on a damaged textile surface. The air flows both vertically and horizontally. The vertical flow works to draw in the pilling through the perforated

razor cover and the horizontal flow helps to form a ball of the fuzz. This new smart technology makes it easier to remove pilling and to clean the machine after use.

### Minimalistic Design Object

Pilo No.2 Fabric Shaver represents the ideal balance between functionality and esthetics. Its unique geometrical silhouette and selected design elements fits right into a modern home.

### USB-C Charger

Pilo No.2 Fabric Shaver is charged by USB-C and works worldwide. The fabric shaver can be used for 2 hours when fully charged. Pilo No.2 Fabric Shaver also enables shaving while it's being charged.

## How to Use

To get pill and lint-free presentable clothes in no time, simply place the garment on a flat surface and gently swipe, do not push, the nozzle over the fabric.

Pilo No.2 Fabric Shaver works perfectly on both clothes and home textiles like knits, coats, scarfs, socks, sofas, armrests, and blankets. It works on all kinds of materials, even the most delicate, and is ideal to bring on travels.

## Specifications

Shaving Time: 2.5 hours

Battery Charging Time: 2 hours

Weight: 152 g

Dimensions: 67x67x93 mm

Power Voltage & Frequency: DC 5V 1A, 5W

Warranty: 1 year

HTS-Code: 85098000

Article Number: See article number list

EAN Codes: See EAN code list

## Materials

Body: PC plastic and ABS plastic

Packaging: Recyclable cardboard
