

THE READER | HORIZONS

The Reader wing chair has been designed as a place you can let your body sink into and relax. The chair's special curved shell is inspired by traditional Danish crafting techniques and helps to reduce surrounding noise, offering a place of shelter and reflection. With its light form and bold organic curves, The Reader is a standout design piece in any setting and just right for enjoying a good book or engaging conversation.

Update the look and colour of the chair in minutes, by interchanging the upholstery yourself. By enabling you to change the upholstery yourself in the future, the life of the design is extended, for the climate and for you.

The Reader is available in oak, dark oak and black oak in four carefully selected colours of the Horizons textile.

The Horizons fabrics are recycled from plastic waste and reused for a new purpose in the design of comfortable chairs and cute cabinets at UIMAGE. The textiles are certified with Global Recycled Standard and STANDARD 100 by OEKO-TEX®.

UMAGE is a Danish word meaning 'making an effort', and that's

what we want to do every day. UIMAGE is where beautiful Danish design meets affordability, high-quality materials and a genuine care for the environment. Nature is the fundamental inspiration for all the designs at UIMAGE, and you'll notice nature's presence in the shapes, colours, materials and sometimes even in the functionality of the furniture and lighting.
